MOBILE AIR CLIMATE SYSTEMS ASSOCIATION

www.macsmobileairclimate.org

About MACS

Meet the Mobile Air Climate Systems Association

WE ARE ...

- The only North American organization committed to moving mobile air climate systems into the future.
- The convener of supply chain connections.
- The facilitator of an inclusive community for knowledge sharing.
- The leading source for mobile climate control expertise.
- The provider of technical information and trainings to meet industry demand.

MACS PURPOSE.

Driving the mobile climate control industry into the future is why MACS Association exists. Our organization was created to connect and equip the entire supply chain with knowledge to ensure safety and comfort for all people and the planet.

MACS history and future are focused on fostering and encouraging sharing knowledge throughout the North American community. We are committed to being the central hub of information and expertise for the industry and our community. We are future-focused to support new technologies, changing climate needs and shifting community demographics.

ALWAYS LOOKING FORWARD.

We take a systems approach. Whether it's the vehicles or machinery we're helping maintain or the needs of our people and planet, we look at the big picture. As natural problem solvers, we are driven to seek solutions. We share the latest trends and provide trainings on new technologies to help our members be service-ready when new challenges arise.

FORGING STRONG CONNECTIONS.

We provide a forum to foster strong relationships, tackle industry-wide opportunities, and maintain a well-connected supply chain of on and off-road manufacturers, distributors, technical professionals and educators. Our desire to influence our industry and community pushes us to look for new ways to create, share and have impact.

COMMITTED TO SHARING KNOWLEDGE.

Mobile thermal and climate control systems are complex but sharing information shouldn't be complicated. We are passionate about empowering our members with the knowledge needed. Whether it is at our trade show, in our forum, via the 609 Certification training or with education partnerships, we spread the latest information and cutting-edge knowledge across the supply chain and through our principal publication MACS **ACTION**™ magazine.

ACTION™ magazine is published eight times annually in both print form and through digital media. Your ad is published in both, but there are special extra digital opportunities for additional exposure. The **ACTION**™ sell date is the first day of the publication month

Print & Digital Rates

**Market your product
through MACS
UNIQUE OPPORTUNITIES**

Digital ACTION™ magazine

MACS digital ACTION™ magazine is emailed to over 30,000 readers each issue. The current digital issue is always displayed publicly on the homepage of the MACS website at www.macsmobileairclimate.org

Five years of archived MACS digital ACTION™ magazine are made available to MACS members for research through the members-only pages of the MACS website. The archives are added value for MACS members and ACTION™ advertisers. The digital issue of ACTION™ provides unique click-through marketing opportunities for advertisers. Ask us about opportunities to feature your brand through an embedded video or more.

Digital Catalogs: Save money on printing and postage. Create and distribute a digital catalog, MACS can help.

MACS Sponsored Webinars: Participating as an expert speaker is a great way to share your organization's expertise to the service and repair industry. Ask us how!
